**REQUEST FOR RECONSIDERATION**

Commissioner for Patents  
Washington, D.C. 20231

Sir:

In response to the Office Action dated December 18, 2002, please consider the following remarks.

**REMARKS**

On page 2 of the Office Action, claims 1-21 rejected under 35 U.S.C. 102(b) as being anticipated by Watanabe et al.

The Examiner's position is that the claimed invention is drawn to a photopolymerizable composition comprising a polymerizable compound having an addition polymerizable unsaturated bond, an organic dye and a least one kind of an organoboron compound of General Formula (I), and that Watanabe et al anticipates the claimed invention at Examples 1-14, by disclosing each of the three recited components in claim 1.
